

Thanksgiving Stone Soup Parties

Thanksgiving celebrations continued with NCS's famous Stone Soup tradition. Parents were invited to join in the festivities by listening to students read from their gratitude journals, searching for their disguised turkeys, viewing the messages of thankfulness written on their pumpkins, and participating in the Stone Soup.

NCS was thrilled to host another Night of Worship for our secondary students! The evening included fun games, delicious food, powerful worship, and an inspiring message from NCS graduate Santiago Vazquez. It was a wonderful opportunity for our students to come together and worship the Lord in an atmosphere of joy and community.

Operation Christmas Child

Our Kindergarten and LEAP students led our Thanksgiving chapel. During the event, the students prayed over the boxes collected for our Operation Christmas Child ministry project. As a school, Northland Christian School gathered a total of 269 boxes, surpassing our total from last year. We are truly grateful for our NCS families.

Mrs. Flowers's third-grade class brought in the most boxes for the lower school and will enjoy a pizza day this Wednesday as a reward. To celebrate our efforts, we will have an all-school hot chocolate and s'mores event on the day before Christmas vacation.

LOWER SCHOOL

Pre-K Learning Fun! "C is for Car- Painting with a Car!"

Honor Choir Field Trip

The Honor Choir had the privilege of watching one of our own Cougars perform in the National Youth Theater's production of "The Little Mermaid" at Lone Star College Tomball. Hallie Bowles, a fifth grader in Mr. Shives' class, was thrilled to see so many of her friends in the audience. Great job, Hallie!

Kindergarten Students Observing Dancing Corn!

Kindergarten students enjoyed a lesson where baking soda and vinegar created carbon dioxide, making the kernels float up and down like they were "dancing" on the bubbles.

Robotics Club Thanksgiving Parade

The lower school robotics club held its inaugural Thanksgiving Parade. They designed balloon floats on top of their robots and programmed them to traverse through the lower school student body. Creativity and critical thinking were clearly on display during the event.

Thanksgiving Stone Soup Parties

Annual Bowling Field Trip for 3rd, 4th & 5th Grade

The annual lower school bowling field trip was a great success! Our students showcased their skills at the bowling alley. Third, fourth, and fifth graders applied the techniques they learned during the PE bowling unit and bowled without bumpers. They did an excellent job!

SECONDARY

FCA Monthly Meeting

During the FCA meeting last week, students brought gifts for the child they adopted from a local school for Christmas through the organization Bridging for Tomorrow. The speaker addressed the students about the positive impact their gifts would have on the children, their families, and the community.

Students are currently working on their Scholastic Competition pieces. In Art III, they are focused on creating clay sculptures, while the 6th grade is working on their pinch pots.

The Orchestra Beat

Congratulations to all of our TMEA orchestra members who participated in a two-

day clinic and concert. They competed against all 5A and 6A public schools in the Region 33 area to earn positions in these outstanding groups. They performed wonderfully under esteemed conductors, including Dr. Gillespie, the author of the method book that our orchestras have utilized for nearly two decades. Special congratulations to Sami and Greg in the Symphony Orchestra and to Danielle, Abi, Allie, and Lexi in the Philharmonic Orchestra!

6th Grade Debates

Recently, 6th Grade Debate students engaged in several small group debates in class. They researched both sides of a given topic and had the opportunity to discuss the NCS uniform policy in small groups. Through these debates, the 6th graders are enhancing their critical thinking and public speaking skills as they explore various topics throughout the semester!

Secondary Robotic Meet

The High School Robotics Team, known as the Beta-Testers, recently competed in their first league meet of the season. They participated in five matches. Although they faced some challenges in the initial matches, they managed to resolve many issues and concluded the meet by winning two matches in a row.

Colleges on Campus this Week

Wednesday

On campus during lunch to talk about job opportunities at Walters location

Thursday

Seniors, be sure to update Mr. Bay on your acceptances and scholarships. We want to celebrate your amazing achievements!

ATHLETICS

Varsity Soccer Scores Big Wins

The Varsity Soccer team is experiencing significant success against 5A schools, having secured a 3-0 victory against Frassati and a 4-3 win over Lutheran South, with Mr. Isaac Banos scoring a total of 6 goals. Way to go Cougars!
